@_FaceSA	My thoughts this evening: "I had a proud moment seeing the #hcsmsa logo up behind our Honourable Minister of Health Dr Aaron Motsoaledi today at #PHASA2018" https://t.co/rpzzLvDnXg
@rene_sparks	Reflecting on #PHASA2018 conference in Parys, 10-12 Sept. Being my first #PHASA2018 conference & I absolutely enjoyed it. The opportunity afforded to the @HastSig has truly inspired us as a group to do more & reach more. Thank you @PublicHealthSA @Tekano_SA @NACOSANet @AhfSouth
@gmacscotland	@moeketsimodise1 @hcsmsa @_FaceSA @follow_hashtag @Marietj72675939 @MimmieMatsanga @Isobel_Ndoro @MmaphehliM @rav_rapiti @ashageorge72 @veensmol @PublicHealthSA Thanks Moeketsi, I'm not sure what some of the stats mean in the @follow_hashtag report (poor labelling of graphs), but I'm glad it's of some use. The full "top tweets" report for #PHASA2018 will be more use (I'll try to finish it this weekend). Kind regards, Graham

@eleanorw hyle	@brian_brianr : "The NHI is the perfect antidote to the HMI (Health Market Inquiry) – because it is about active purchasing and patient-centered, pro-active care." #PHASA2018 @HSphasa @CHESAihpsr
@Jill_Olivie r	Hats off to Min Motsoaledi, he has been passionately talking NHI for 3 hours non-stop at #PHASA2018 while his escape/driver stands ready at the back. Agree with him all the time or not, this civil servant gives a damn about his portfolio @HealthZA

@SMU_PH PM	The MOH Dr Aaron Motswaledi engaging in a panel discussion on Private-Public partnership and the National Health Insurance. "In South Africa we have 2 arms, Funders and Providers. Only funders are regulated by statutory bodies" #PHASA2018 #HealthForAll #UHC #NHI #hcsmsa https://t.co/gkU9ejuRss

@Karessa Gov	If private sector resources are concentrated in urban areas, how will public private partnerships promote equity? Question posed by audience member to Min Motsoaledi #PHASA2018 @russ421 @rhap
@MatlalaM oliehi	So government wants to move from PMBs(prescribed minimum benefits) to DRG (diagnostic related groups) #PHASA2018
@_FaceSA	Important point by the Minister of Health Dr Aaron Motsoaledi about Prescribed Minimum Benefits (PMBs) in South Africa asking why all diseases are not covered. From my own experience, Autism is not on the list and its a nightmare to try get medicine using medical aid #PHASA2018
@veensmol	Enjoyed learning and meeting new people at #PHASA2018 But let's take things further... I'm looking to do a PhD in the public health space, let's engage on topics and projects colleagues 🌟 https://t.co/VkXncOGb1g
@Choonar aShakira	Zero engagement, one sided telling us what the problems are but again where is the "solutionist thinking" may we continue the push for accountability in the name of those suffering thanks for creating the space @PublicHealthSA #PHASA2018 @MahlabaK
@ashageor ge72	Leslie London: are we doing our problem analysis well, if MMR is high in free state is a specialist PPP hospital the answer? Are we doing a Systems, social determinants analysis of what elements of PHC is missing before building more specialist hospitals #PHASA2018

@PublicHe althSA	MOH Dr Aaron Motsoaledi concluded his talk at #phasa2018 A pity he didn't use the time to better engage the @PublicHealthSA community more extensively. So ineffective critical debate continues. @ygpillay @Bhekisisa_MG @Jill_Olivier @ChoonaraShakira @hcsmsa @HealthZA

@Mimmie Matsanga	Private-public partnerships should be structured in a model that will provide High volume/quality - low cost as services as opposed to low volume- high cost services #UHC #NHI #PHASA2018
@MatlalaMoliehi	The NHI is about patientcentric care #PHASA2018
@jodi_wishnia	@brian_briandr explaining @PPOserve's @thebirthingteam approach as an example of reorganisation in pvt sector towards a high volume, high quality and low cost model #phasa2018 https://t.co/PGVFZTnoY4
@TanyaDubeM	South Africa plans to add 2 million more patients to the ART program. Great for ensuring 90% of people who know their HIV status are on treatment. But what are the implications for adherence with an increased patient load on ART?#PHASA2018

@mamothena	White Paper of #NHI details HOW it is going to happen, including transitional arrangements. Financial matters, complaints and appeals, Ministerial Committees among others. Comments Minister Motsoaledi @HealthZA at #PHASA2018 .
@CarnitaErnest	@HealthZA Questions I'm sitting with after MOH Motsoaledi presentation? What did we do do wrong in 1994, and after that got us to here? We hear tax+finance, purchaser+ provider, but where's the user? Would love a graphic showing the user in the system #MakingNHIsimpler #PHASA2018
@AmandaSpeech	Tagged onto the end of a long speech, but still very little detail. How can we ensure proposed NHI fund doesn't perpetuate current inequity in healthcare??? What are the pilot site learnings that will be used??? #PHASA2018 #NHI https://t.co/l4qPWg8VMD
@mamothena	Under #NHI in SA each cadre of healthcare workers is needed, including community health workers. Ministerial Committees, including for #HRH, important part of the NHI Bill. Comments Minister Motsoaledi @HealthZA at #PHASA2018
@_FaceSA	The #NHI Ministerial Committees should be made up of diverse stakeholders as explained at #PHASA2018 by Honourable Minister of Health Dr Aaron Motsoaledi - #hcsmsa #EveryoneIncluded https://t.co/CJZBaa0xFK
@Jill_Olivier	MOH Motsoaledi #PHASA2018 : "next week we will make a huge announcement, we are going to totally change how we will train nurses in this country" @UCT_SPHFM @UCTHealthSci
@mamothena	Clinical associates cadres & their potential contribution to #NHI. Ward Based Outreach Teams implementation. Legislation for subsidies to be moved to the NHI fund immediately. A learning system for the NHI implementation. Some of the thoughts by audience at #PHASA2018 @HealthZA
@rene_sparks	All cadres are needed but a ministerial committee for HR will be established to support roll out of #NHI #PHASA2018 #HealthForAll

@ashageorge72	Minister Motsoaledi medical subsidies are legislated but spending on public health is not, we need legislation that protects spending for the poor #PHASA2018
@MatlalaMoliehi	The WHO passed a resolution that no country should take healthcare workers from developing countries #PHASA2018 individuals do not migrate to a place where there is no money, so healthcare workers will not move to the public sector
@MimmieMatsanga	Massive disparities in the spread of HR between Public and private sector . Large shortages of specialists who seem to flock towards private sector 😊 - Dr. Motsoaledi @HealthZA #PHASA2018
@MatlalaMoliehi	Of the 700 psychiatrists in SA 525 are in the private sector serving 16% of tge population the rest 175 serve the 84% of the population #PHASA2018
@mamothena	We far exceed the 5% of GDP required by WHO for spending on health (8.7%). "We and Europe same WhatsApp group", the latter at an average of 9%. But the realities of health between SA and Europe are starkly different. @HealthZA Minister Motsoaledi at #PHASA2018. #UHC #NHI
@rav_rapiti	#PHASA2018 #NHI still massive increases in health in private care
@ashageorge72	Minister Motsoaledi just with the subsidy of 26 billion rand given as medical aid rebate I could hire 26,000 health workers if treasury gave me this money vs continuing o subsidize private sector that only covers 16% pop #PHASA2018
@mamothena	"We recognize implementation of the #NHI requires massive reorganization of public and private health system" @HealthZA Minister of Health Motsoaledi at #PHASA2018 conference. #UHC
@PublicHealthSA	MOH Dr Aaron Motsoaledi at #PHASA2018- R57 billion will be spent on government employee subsidies, and medical aid tax credits and rebates, in 2018! #NHI @PublicHealthSA #HealthForAll @Bhekisisa_MG @HealthZA @ChoonaraShakira @ygpillay @Jill_Olivier @jeanetterebec1 https://t.co/0Flv1zT1H7

@ashageorge72	Minister Motsoaledi asks is the 4.5% that the private sector spends on health purely private? 57 billion rand in 2018 state subsidy to private sector but where is the public responsibility to health for all? #PHASA2018 @CHESAihpsr
@Isobel_Ndoro	"Maternal mortality should go down." - Minister of Health, DR Aaron Motsoaledi #PHASA2018 #hcsmsa #SDG5
@ashageorge72	#PHASA2018 minister Motsoaledi hard financing facts, WHO recommends 5% GDP on health, South Africa spends 8.7% on health without concomitant results, private sector spends 4.5% on 16% pop, public sector spends 4.2% on 84% pop: this can't continue as business as usual @SOPHUWC
@mamothena	There's no single convention of health that defines different healthcare for the poor Vs the rich. Health is a right not defined by socioeconomic status. A right should never be sold to people. @HealthZA Minister Motsoaledi at #PHASA2018 . #UHC #NHI
@rav_rapiti	#PHASA2018 #NHI Yet again the Minister reiterates that way too much of the GDP (4.5%) is spent on a higher SES group (16%) of the population
@Marietj72675939	Dr Motsoaledi: Major contributing factor to health inequalities in SA is inequalities in expenditure of funds - only 4.2% of GDP in SA must provide for 84% of population #PHASA2018 #healthcare #HealthForAll https://t.co/esK3X4BEAk
@blestab	"Yet our health outcomes do not come close to European countries that are spending nearly the same or even less than us" - #PHASA2018 #HealthForAll https://t.co/7S9ruP6We5
@MatlalaMoliehi	Of the 8.7% 4.5% is spent on 16% of the population and tge rest 4.2% is spent on 84% of the country. Yet we expect good quality of health for the massess #PHASA2018
@blestab	@WHO recommends that countries spend 5% of GDP on health. In SouthAfrica we have exceeded this at 8.7% of GDP on health. An average European country spends 9%.The private sector spends 4.5%.The public sector spends 4.2% yet provides 84% of the population #PHASA2018 #HealthForAll https://t.co/2NmoYNHRXi

@Marietj72675939	AU said that if countries in Africa spend 15% of GDP health care systems will improve - Dr Motsoaledi disagrees: SA currently spends 8.7% GDP on health, 3.5% more than WHO recommendation, but without improvement/better health outcomes. #PHASA2018 #healthcare https://t.co/gr4aKvcVPV
@CarnitaErnest	Minister Motsoaledi @HealthZA This is what we're trying to change... Deeply entrenched inequities #PHASA2018 https://t.co/vwRU3228u9
@MatlalaMoliehi	The WHO states that each country should spend at least 5% of their GDP on health, the problem is that in SA we are already at 8.5% , which implies that we should be having the best health care system, same as what is found in Eurpoe #PHASA2018
