	END TRANSCRIPT
@hcsmsa	@JoyceMisoi1 We are always very grateful to have you Joyce, thank you for being with us! #PHASA2018 #hcsmsa
@Marietj72675939	I fully agree. Addressing #HealthForAll includes much more than only health care issues. @MahlabaK #PHASA2018
@hcsmsa	Today's #PHASA2018 Twitter chat transcript about Health for All in South Africa - https://www.symplur.com/healthcare-hashtags/PHASA2018/transcript/?hashtag=PHASA2018&fdate=9%2F3%2F2018&shour=12&smin=55&tdate=9%2F4%2F2018&thour=12&tmin=55 - cc: @HealthZA @CyrilRamaphosa
@hcsmsa	Top Influencers of the #PHASA2018 Twitter chat today 🇿🇦 @Isobel_Ndoro @blestab @rene_sparks @MimmieMatsanga @atiyamosam @garethpresch @publichealthsa @MahlabaK @moeketsimodise1 @JoyceMisoi1 @Marietj72675939 - https://www.symplur.com/healthcare-hashtags/PHASA2018/analytics/?hashtag=PHASA2018&fdate=9%2F3%2F2018&shour=12&smin=50&tdate=9%2F4%2F2018&thour=12&tmin=50 via @symplur https://t.co/pHbYOp6N1m
@JoyceMisoi1	@hcsmsa Thank you for practical solutions from contributors! I am grateful for inviting me, I've learned alot. Health in social media is well and alive! Together we inspire #PHASA2018 🇿🇦💡🌍👏👏👏👏
@livetalkafrica	Inxoxo enhle #PHASA2018 ukusebenzisana kuyenza izidingo zethu ziphumelele #impilo kuzo zonke
@blestab	CT: "It always seems impossible until it's done" - Nelson Mandela #PHASA2018 https://t.co/92BplqHDd
@MimmieMatsanga	@MahlabaK Improved work climate!! Very important and often underlooked. #PHASA2018
@JoyceMisoi1	Spot on @andrewsuleh #phasa2018
@MimmieMatsanga	@JoyceMisoi1 @_FaceSA good governance and accountability measures at every level of the healthcare system. #PHASA2018
@rene_sparks	Financial impact of TB on SA: Minister of Health: R400 to treat TB pp, if it's MDR TB = R400 000 pp and if it's XDR TB R800 000 pp. We need to identify early, treat appropriately and prevent where possible! #SATBCaucus #HealthForAll #PHASA2018 #BreakTheStigma @NACOSANet @SOPHUWC
@JoyceMisoi1	@_FaceSA Engage communities by creating clusters to audit existing gaps in healthcare and wellness #PHASA2018
@MmaphehliM	CT: Access, preventive approach, affordability, quality and human dignity are vital in a health for all approach. Public-private partnership is at the forefront of sustainability of a #healthforall model #PHASA2018
@MimmieMatsanga	@MahlabaK Yes indeed. Vaccines are one of the most cost-effective ways of preventing disease. Also reduces use of antibiotics and prevents anti-microbial resistance. Its a win-win #vaccineswork #PHASA2018 https://t.co/pMaQF7AJKn
@blestab	@livetalkafrica futhi kubiza imali ukuphatha #phasa2018
@Marietj72675939	Absolutely! Education around vaccinations and overuse of antibiotics are much needed. #PHASA2018
@Zumbudda	@hcsmsa We are always enthusiastic about collaboration and believe that without pooling our knowledge and expertise across the continuum, we won't reach the sustainable goals that will ensure affordable and accessible healthcare for all. #Phasa2018

@Mimmie Matsanga	Awesome insights from all who participated. Honestly enlightening to hear other industry perspectives. Lets continue the conversation at #PHASA2018 .Hope to meet you all there.
@rene_sparks	@MimmieMatsanga Scheduled upskilling with support of Provincial Dept of Health, input from academia and a realistic time frame in which to conduct it. Similar to the programme to up skill nurses to complete Clinical Nurse Practitioner courses. Whilst integrating it into curricula. #PHASA2018
@blestab	@hcsmsa thank you for having us Vanessa, Very interesting viewpoints and opinions expressed. Hope to continue this conversation. #phasa2018
@Marietj72675939	@atiyamosam Lack of funding and threats to some entities' profits will beed to be overcome to make NHI and #HealthForAll work #PHASA2018
@blestab	@livetalkafrica @livetalkafrica kuyiqiniso #phasa2018
@hcsmsa	@Isobel_Ndoro the pleasure was ours Isobel. Thank you for supporting the health for all movement. #phasa2018
@Marietj72675939	Agree, civilisations are known by their ability to look after their vulnerable. Make our constitutional rights count! #PHASA2018
@livetalkafrica	CT: impilo kuzo zonke kutsho ukuthi ukunakekelwa kwezempilo kuqala ekhaya, esikholweni, emsebenzini #PHASA2018
@Marietj72675939	T4: Fair financing will enable government to actually materialise people's cinstitutional right to access to health care. No funds = no resources (meds/machines) = no right to access #PHASA2018
@Isobel_Ndoro	@hcsmsa Thank you @_FaceSA for an eye opening chat. I have something to chew on. #PHASA2018 #HealthForAll
@hcsmsa	@moeketsimodise1 the public transcript is free! :) #phasa2018
@atiyamosam	Thank you for allowing us this time to interact. #PHASA2018
@hcsmsa	@Zumbudda thank you for being with us! We're yet to have a chat about startups and public health in South Africa!!! #phasa2018
@atiyamosam	Love this. I am stealing it. #PHASA2018
@moeketsimodise1	T4 At individual level improve health literacy & capacity for informed health decisions #phasa2018
@Zumbudda	@hcsmsa Thanks for facilitating @_FaceSA #Phasa2018
@hcsmsa	We'll tweet out the chat analytics in about 20 minutes #phasa2018
@rene_sparks	@blestab @moeketsimodise1 @MimmieMatsanga Definitely, we can be a vehicle fir change if used correctly. #PHASA2018
@livetalkafrica	Umzimba ophilile = umqhondo ophilile= umndeni ojabulile #PHASA2018
@hcsmsa	Thank you to everyone who joined us today, it's important to bring diverse stakeholders together like this for #SDG3 #phasa2018
@moeketsimodise1	At local we need to prioritize preventive primary services, recruit sufficient & retain workforce, address procurement issues, conduct infrastructure & equipment maintenance #phasa2018
@GarethPresch	@blestab CT #Ubuntu #HealthforAll #Salutogenesis #PHASA2018 📌 https://t.co/ncoDbitN8g
@Mimmie Matsanga	CT: Above everything else in South Africa #HealthforAll provision means adhering to the constitution- (Right to health for ALL) Its more than just a priviledge but a basic right #PHASA2018

@rene_spa rks	@hcsmsa CT: we need a 'true' integrative, comprehensive and transparent approach to transformation in health. We need to work together and not compete but need to effectively collaborate. #PHASA2018
@Marietj72 675939	#HealthForAll is a continuously evolving team effort involving the entire country. Collectively we need to address funding (employment, management) to materialise our constitutional right to ACCESS to healthcare - subject to resources #PHASA2018
@Isobel_N doro	@hcsmsa @RasuShrestha #PHASA2018 #HealthForAll https://t.co/xgxiMkTLG2
@livetalkafr ica	T4:#impiloenye ngubani okukhokhelayo futhi ngubani oyimelayo ma bengenayo indlela yobuchwepheshe #PHASA2018
@atiyamos am	YESSSSS! Everyone. Single. One. Of. Us. #PHASA2018
@Zumbudd a	T4: We need to collaborate globally. When a small South African diagnostics company first won a tender for a French HIV diagnostic company in SA, it set off a global interest in developing new technologies for HIV testing, which today would not exist otherwise.#PHASA2018
@blestab	CT: #HealthforAll means that health begins at home, in schools, and at the workplace, and that people use better approaches for preventing illness and alleviating unavoidable disease and disability. #PHASA2018
@blestab	CT: As long as we see health care as ending at a clinic or a hospital, we will never have UHC. You have to have a health system that instead moves into the local community. #PHASA2018
@GarethPr esch	@hcsmsa Great chat #PHASA2018 🎯👉working together we can achieve our goals #HealthForAll
@_FaceSA	CT: Health for All is the foundation we should build our systems upon when it comes to serious issues like infectious disease #phasa2018
@blestab	CT: Disease burdens and their causes can be measured, the impact of specific interventions can be assessed, and changes over time can be tracked. #PHASA2018
@atiyamos am	CT Our country is on the brink of huge reforms to bring universal coverage to all but we need to work together - the current distrust between all the various stakeholders will only hinder us. #phasa2018
@rene_spa rks	@moeketsimodise1 Absolutely! Firmly believe we can make inroads into our own communities #PHASA2018
@blestab	CT:Health is an end-point that reflects the success of multiple other #GlobalGoals.Since the social,economic and environmental determinants of health are so broad, progress in improving health is a reliable indicator of progress in implementing the overall #SDGs agenda.#PHASA2018
@Mimmie Matsanga	@_FaceSA Indeed access to medicines is more that just availability. Are we making compromises on quality? Important to lean on EML for evidence based medicines. #PHASA2018
@blestab	@Marietj72675939 @atiyamosam @_FaceSA @blestab happy families = happy/productive communities = happy/productive countries #phasa2018
@Isobel_N doro	@hcsmsa CT: "Health for All is Everyone's Responsibility ... so we seek alliances that ensure a shared commitment to action." WHO #PHASA2018 #HealthForAll
@moeketsi modise1	T4 fair financing to ensure equity in access as required under the right to health - emphasis is in accordance with people needs not ability to pay #phasa2018
@Marietj72 675939	@atiyamosam healthy body = healthy mind = happy families! #PHASA2018
@hcsmsa	Moving towards CT everyone, Closing Thoughts. What do you think besides the questions we asked in terms of health for all? #phasa2018
@atiyamos am	Thats excellent. We have it as a competency in medicine but students do not take it seriously. #phasa2018

@GarethPresch	@_FaceSA @blestab Agreed and apologies I mean framework - adopted locally by people and their communities #PHASA2018 their choice 🍌🇱
@livetalkafrica	T4:kuthembela ekusizeni kwamanye amazwe #PHASA2018
@Marietj72675939	@blestab and can be more creative, innovative, must needed attributes to grow our economy #PHASA2018
@blestab	@_FaceSA Yep, all these questions need to be fleshed out properly. All stakeholders need to come to the table. #phasa2018
@atiyamosam	Exactly - because our focus is always cure is better than prevention. #phasa2018
@_FaceSA	@GarethPresch @blestab I think any business model won't be effective, we have to respect cultural issues first. We have tradition #phasa2018
@MimmieMatsanga	@moeketsimodise1 the sum of little individual efforts will leave an impact. No act too small. #PHASA2018
@MmaphehliM	@atiyamosam @MimmieMatsanga T3: True, preventative, health promotive and health awareness emphasizing the importance of a healthy lifestyle and exercise is essential for #Healthforall #PHASA2018
@moeketsimodise1	T3 As we have started in SA we need a comprehensive review of ALL legal and policy frameworks and establish parameters of people's entitlements & regulate private actors #phasa2018
@Zumbudda	@_FaceSA Tracking medicines through throughout the distribution chain process from the original manufacturer to the dispenser will be enabled by technologies such as #blockchain which increases process transparency thereby reducing counterfeit medicines. #PHASA2018
@livetalkafrica	T4:Ukusakazwa kwezifo zesifo #PHASA2018
@atiyamosam	T3 We need to de-commodify health care and stop treating it like an ordinary market good. #phasa2018
@livetalkafrica	T4:Ucabanga ukuthi umnotho wezwe wonke uthinteka kanjani ngaphandle kokuphulukisa konke okuhambisanayo #PHASA2018
@blestab	T4: Ill-health, even one-off cases of sick leave, reduce the productivity and efficiency of businesses and negatively affect both earnings and profit. #PHASA2018
@Marietj72675939	T4: Absenteeism due to no #HealthForAll, like excessive strikes may result in international companies taking their work to another country providing a cost effective labour force = closure of local companies? #PHASA2018
@GarethPresch	@blestab @_FaceSA T4) the #WHIS business model to achieve #HealthForAll #PHASA2018 #onehealth 📍 https://t.co/7AH9vvjeWy
@_FaceSA	@blestab and how in-depth that goes right? But, one has to think, if we reform, how do we plan to do that effectively? #phasa2018
@MimmieMatsanga	T4: The absence of a health for all approach has led to weaker public health systems which have an implication on cost. Using the Ebola crisis in West Africa as an example-building public health systems would have cost a third of the cost used for Ebola response. #PHASA2018
@atiyamosam	True. I do wonder sometimes if we get tripped up by all these fancy policies when we all know what needs to be done. #phasa2018
@rene_sparks	@_FaceSA @Isobel_Ndoro @JoyceMiso1 @hcsmsa To me, the stakeholders are the community, the civil society, funders and multisectoral Dept eg Education, Health, Social services, private sector, academia and politicians when it comes to health... Appropriate to the conversation. #PHASA2018
@MimmieMatsanga	T4: Impact-Huge health care debts within the population.150 million people fall into poverty every year paying for health. (WHO)Also important to look at health as an investment, a healthier population translates to productivity and a country's economic growth. #PHASA2018

@blestab	T4: In the middle of the Ebola outbreak (2014-2016), a report presented by the World Bank estimated that, at the high end, the disease could cost up to \$32.6bn if the outbreak continued and was unable to be contained in Sierra Leone, Guinea and Liberia. #PHASA2018
@moeketsi modise1	T3 raise awareness in your own space a d community for good health & healthy lifestyles #phasa2018
@hcsmsa	Keep answers coming for the transcript, really important views! #phasa2018
@livetalkafrica	T3 Osomabhezimisi abasakhula mabangenele!basisze ukudinga amabhezimisi amahle emphakathini #PHASA2018
@blestab	@_FaceSA That's true. #HealthForAll may not be easy to achieve without #OneHealth #phasa2018
@atiyamosam	YES! Body AND Mind. We forget about the mental health of people. #phasa2018
@rene_sparks	@hcsmsa We will continue to see poor or limited access to quality drugs and Healthcare without #HealthForAll. Our people, communities and families experience barriers to early, timely diagnosis, early, effective treatment. #PHASA2018
@GarethPresch	@blestab @_FaceSA 📌T3)#PHASA2018 - it'll come as open source etc will drive the demand as the need is great #WHIS platform 📌🌐🌐🌐 https://t.co/xkBSdiVBvP
@Marietj72675939	T4: Unhealthy employees = absent employees = loss of productivity; decrease in service delivery and ultimately loss in profits. Lost profits may even result in job losses #PHASA2018
@blestab	T4: Daniel Dulitzky @WorldBank: "In our Pandemic Emergency Facility (PEF) we quoted an estimate that a severe pandemic could have an economic impact of approximately \$550bn-\$570bn (£399bn-£422bn) worldwide, which is about 0.7% of global GDP". #PHASA2018
@_FaceSA	T4: #OneHealth is even more complex, who's paying for that and who participates if they don't have access to technology? #phasa2018
@Zumbudda	T4: Without technology as a key intervention, disease will remain a regional problem and with limited resources, narrow knowledge base and a shortage of skills, it will never be in the best interest of patient. #PHASA2018
@atiyamosam	T4 Our difficulty in getting the HIV/AIDs pandemic underhand is leading to large populations being too ill to be productive and a government that is paying for treatment and social support. We need to do more to curb this pandemic. #phasa2018
@blestab	T4: Families' entire assets and saving, which are generally meagre before the onset of the disease, may be completely spent in trying to get medicare, and when the breadwinner(s) pass on, this usually leaves the surviving family members without a means of support. #phasa2018
@blestab	@Isobel_Ndoro @atiyamosam burnout is definitely a problem that would needs to be addressed #phasa2018
@GarethPresch	@hcsmsa T4) huge all connected 📌 #PHASA2018 thankfully #health provides that opportunity for the future - bring people together - improve their health and wellbeing while generating new jobs etc🌐🌐🌐 https://t.co/4ZEjXclnF
@rene_sparks	@hcsmsa T4: without #HealthForAll we perpetuate inequity and injustice in SA. Globally, it's not different, the poor and marginalized communities continue to suffer. #PHASA2018
@_FaceSA	T4: In terms of Antibiotic Resistance, we need to gather data from as many sources as possible #phasa2018
@Isobel_Ndoro	@hcsmsa T4: Healthy body & mind means high productivity, if the masses are not healthy enough, the productivity will go down and the GDP growth rate will decline and affect the global economy. #PHASA2018 #HealthForAll
@blestab	@MmaphehlIM @blestab absolutely, collaboration is key! #phasa2018

@pochonavaro	#phasa2018 prevention is new bacteria, poor organization in health centers, lack of specialists, administrative staff with poor organizational management, more donors #HealthforAll #HealthCareforAll #Health4All #Saludparatodoslasalud #Saludparatodoslossaludables #Saludparatodos
@Marietj72675939	T3: educating people about their own healthcare needs and healthy lifestyles to prevent unnecessary pressure on an already resource scarce system #PHASA2018
@atiyamosam	T4 Illness directly affects someones ability to work and earn a living, thereby impacting the local economy. #phasa2018
@MmaphehliM	@blestab T3: a holistic approach coupled with a multi and inter-disciplinary team is required. Collaboration is of importance #PHASA2018
@_FaceSA	T4: A systems approach should consider all stakeholders, not just from a human level. Anything local plays a global role #phasa2018
@MimmieMatsanga	@atiyamosam Kudos for the BPharm curriculum which has recently added Public Health as a Competency standard. Very progressive. #PHASA2018
@livetalkafrica	T3:Ubuchwepheshe buzodlala indima ebalulekile emiphakathini yezemfundo evuselela abanzi kakhulu ekunakakeleni impilo #PHASA2018
@blestab	@hcsmsa T4: A healthier workforce has both improved physical and mental ability and can produce more from the same inputs, it says. Economies with better health conditions enjoy a positive and direct impact on economic growth, largely through increased worker productivity. #PHASA2018
@atiyamosam	T3 Ensuring we invest in prevention of disease and promotion of health instead of only curative care. #phasa2018
@Isobel_Ndoro	@atiyamosam True. Some of them burn out which is more steps backwards #PHASA2018 #HealthForAll
@atiyamosam	Yes, the curriculum needs to move with the times. #phasa2018
@MimmieMatsanga	T3: More partnerships & collaborations between the private and public sector. Also factor in academia for continued research. More studies on evaluation of healthcare systems. #PHASA2018
@Marietj72675939	Addressing unemployment. Everything is connected. More taxpayers equals more funds to ensure better health care, access to health care and #HealthForAll #PHASA2018
@hcsmsa	T4: How do you think global and local economies are impacted without a Health for All approach? Why do you think it matters? #phasa2018
@_FaceSA	@JoyceMisoi1 @hcsmsa absolutely, who are the stakeholders? We keep talking about them, but who are they really in a system? #phasa2018
@livetalkafrica	T3:Yiziphi izizazululo ocabanga ukuthi kuzosiza uhlelo olugcwele lwezempilo? #PHASA2018
@MmaphehliM	@hcsmsa T3: #Herdimmunity, an immunised community is a healthy community, by ensuring universal coverage of immunisation against #VaccinePreventableDiseases. #PHASA2018
@JoyceMisoi1	@hcsmsa #patientsafety is key. Its imlortant for more establishments to allow patients have access to records as this builds trust #phasa2018
@atiyamosam	We also need to address the overuse of antibiotics. #phasa2018
@hcsmsa	Tell us what you think could change public health issues by joining the chat. We're moving on to T4 in 1 minute #phasa2018
@rene_sparks	@hcsmsa Review Health Professionals training curricula. Eg. Nurses to complete NiMART training and HIV finger pick training during their foundation training. Provinces to be more inclusive of civil society health professionals in their training without restriction. #PHASA2018

@atiyamosam	Thats true but financial incentives are not always enough - we need to ensure they have social incentive eg schools, leisure activities, social support. #phasa2018
@GarethPresch	@hcsmsa T3) solution for #HealthForAll see @HIC2016 protyped in #Cumbria can be applied 🌐🌐🌐supprts people's health wellbeing, creates new jobs, generates value that can bee shared 📢 #PHASA2018 #WHIS @WHIS_kids @WHISatwork @WHISGreen https://t.co/DZ4nOzTrsH
@JoyceMiso1	@hcsmsa There is a need for collaboration in all sectors governments, private srctors, research institutio s and NGOs #phasa2018
@_FaceSA	T3: Get entrepreneurs involved! Let them help to find good business models in public health. Invest in that for the #NHI #phasa2018
@atiyamosam	Agreed. Our public and private sectors are too tertiary care oriented. #phasa2018
@blestab	T3: Because most barriers to care cannot be overcome by the health sector acting alone, inter-sectoral collaboration is called for #PHASA2018
@rene_sparks	@hcsmsa T3: Engage with civil society. Reduce the barriers: political, policy and inequitable resources #PHASA2018
@livetalkafrica	T2:Ukufundisa umphakathi ngendlela yokuthatha imithwalo yempilo yabo nomndeni wabo #PHASA2018
@blestab	@atiyamosam @atiyamosam @_FaceSA also include Civil Society Organisations in policy and solution formulation #phasa2018
@_FaceSA	@JoyceMiso1 @hcsmsa great to have you here Joyce! #phasa2018
@MimmieMatsanga	@pochonavaro Yes. teamwork across all stakeholders in the healthcare system #PHASA2018
@atiyamosam	T3 Ensuring that our healthcare workers are well looked after because we have nothing if we do not have a workforce that is happy, safe and productive. #phasa2018
@_FaceSA	T3: Put pressure on digital / data providers so they reduce costs and improve access for the public health sector #DataforAll #phasa2018
@Zumbudda	T3: Policy makers must treat #digitalhealth as a key intervention for sustainable healthcare delivery and resource their departments with digital health industry experts, not just IT experts. #PHASA2018
@JoyceMiso1	@hcsmsa A review and audit of existing policies is important and amending according to needs #phasa2018
@Marietj72675939	@hcsmsa T2: Ensure high quality health care services/hospital management and communication to patients to minimise claims and costly litigation against state hospitals #PHASA2018
@atiyamosam	T3 Implementation of the Health In All Policies ideology in all sectors and departments. #phasa2018
@pochonavaro	#phasa2018 Scaneo technology to have the patient's data and prevent future diseases, more teamwork among doctors, nurses and administrative #HealthforAll #HealthCareforAll #Health4All #Saludparatodosenlasalud #Saludparatodoslossaludables #Saludparatodos
@rene_sparks	@atiyamosam Absolutely Atiya: we also need to engage civil society. Leverage on resources not replicate. #PHASA2018
@atiyamosam	T3 Active citizenship that works together for the greater good. #phasa2018
@livetalkafrica	T1:Sidinga ukuqonda amandla okugcwele kokulili izihlelo zokunakekelwa kwezempilo zomphakathi nezizimele #PHASA2018
@blestab	@_FaceSA #SoTrue, we have so many people with brilliant startup ideas but they cant break through due to policy issues #phasa2018
@atiyamosam	T3 Political will that is without corruption and greed. #phasa2018

@Mmaphe hliM	@hcsmsa T2: The basis of #HealthForAll is primary healthcare. Barriers such as disparities concerning infrastructure and service delivery should first be addressed on PHC level #PHASA2018
@Mimmie Matsanga	T3: Work needed on each of the core health system components. That is provision of: Improved service delivery; well-trained health care providers; augmenting Health Information systems; sustainable financing system; good governance & effective stewardship #PHASA2018 #hcsmsa
@blestab	@hcsmsa T3: e.g. Brazil has used a package of incentives to recruit physicians to work in remote and deprived areas and to improve the primary health-care infrastructure, leading to better working conditions and better quality of care. #PHASA2018
@_FaceSA	T3: Reform is very necessary so we address the cost to purchase antibiotics, 80% of the population are using substandard medicine #phasa2018
@Mimmie Matsanga	T3: Holistic approach necessary -Comprehensive analysis (benchmarking) of existing #UHC where its successful, trade agreements, public and private market forces, deciding on research & development priorities as well as intellectual properties rights (medicine patents)#PHASA2018
@Zumbudda	T2: Policy makers must change their mindset around #digitalhealth . It is not a replacement to healthcare or practitioners, rather a way of widening access to care . #PHASA2018
@GarethPr esch	@hcsmsa T3) People👍💡 #Knowledge #phasa2018
@Mimmie Matsanga	@rene_sparks Thanks http://Rene . How do you propose the government achieve this & how can we handle low staff complements in public sector #PHASA2018
@Isobel_N doro	@hcsmsa T3: Job creation to alleviate poverty; Good Governance or Leadership; Good Infrastructures and Collaboration of relevant stakeholders #PHASA2018 #HealthForAll
@atiyamos am	That sounds really interesting. We need those efforts to bridge the gap between Western medicine and other forms of healing. #phasa2018
@GarethPr esch	@blestab @hcsmsa T2) Now see the opportunities 💡 #phasa2018 https://www.thriveglobal.com/stories/41960-opportunity-knocks
@SHA_ZA R	T3: #UHC #NHI #HealthForAll #PHASA2018
@hcsmsa	T3: What solutions do you think could help towards implementing a Health for All system? #phasa2018
@hcsmsa	We have to move on to T3 everyone so we stay to time, but please keep sharing your views about health for all using the hashtag #phasa2018
@GarethPr esch	@hcsmsa Now look at the opportunities 💡 T2) #phasa2018 https://t.co/gFQfnzC82s
@atiyamos am	T2 We need to collaborate with our sectors/departments such as housing, agriculture, water and sanitation to uplift the social conditions of our population. #phasa2018
@moeketsi modise1	T2: in case of South Africa we also need to address other barriers such as geographic distances, gender norms, cultural differences & other social & political determinants #phasa2018
@GarethPr esch	@hcsmsa T2) start with WHY? #phasa2018 #WHIS 💡 https://t.co/EjB9WGNZ2o
@Zumbudda	@atiyamosam Just attended @InnoJustice Innovating Justice Challenge earlier tonight where Buyisa Mediation presented a solution that offers expertise to the local community for settling disputes with traditional healers. African solutions to African problems. #PHASA2018
@rene_spa rks	@hcsmsa Health care worker upskilling and support to deal with increased workload and quadruple burden of disease #PHASA2018
@atiyamos am	T2 We need to find a common ground for the public and private sectors to work in tandem. #phasa2018

@Mimmie Matsanga	@atiyamosam Agreed. Good governance is very critical #PHASA2018
@rene_sparks	@hcsmsa The social determinants of Health eg poor housing, lack of access to health & education, lack of access to health services needs to be looked at #PHASA2018
@_FaceSA	@moeketsimodise1 exactly, why be profit-driven. Any creative entity will demolish that! This system is profiting someone else! #phasa2018
@atiyamosam	T2 We need to redistribute our health care workers from private to public sectors and urban to rural areas. #phasa2018
@livetalkafrica	T1:Ngaphezu kwalokho kuncike ekudingeni ukuthi yikuphi ukunakekelwa okwedlule okukhethekile #PHASA2018
@moeketsimodise1	T2: we need to reduce and even eliminate out_of_ pocket payments in our move towards #HealthForAll #phasa2018
@blestab	T2: Living conditions also have an impact on health. In some developing countries, gas lamps, cook stoves, burning coal, wood or animal dung create unhealthy indoor pollution; Some estimates the impact to be close to that of smoking 40 cigarettes a day, in some cases #PHASA2018
@GarethPr esch	@_FaceSA Interestingly - if you look to the future I suspect Africa will likely lead health and wellbeing #Salutogenesis 🧠🌍🌱 as the need is great and that brings the innovation and solutions 😊@JoyceMiso1 #WHIS #phasa2018
@SHA_ZAR	T2: At the outset, we need to overcome mindset barriers- about the need for, and the rights of all people, to access equitable healthcare- so that everyone is committed to #HealthForAll and leaving no one behind #PHASA2018
@Mimmie Matsanga	T2: Barrier-Differing professional/experiential cultures. Great need for a multi-disciplinary approach for all key stakeholders involved. A pool of experts from all sectors: Physicians, Pharmacists, nurses, policy specialists, public health Health IT, experts etc #PHASA2018
@atiyamosam	T2 We need to address our public sector with its poor administration and management. #phasa2018
@_FaceSA	T2: Stringent policies must be reviewed, so that innovative startups can be a part of the resolutions #phasa2018
@atiyamosam	T2 We need to address our unsustainable private sector with its escalating costs and over-capacity. #phasa2018
@livetalkafrica	T1:Ukunakekelwa kwezempilo okuyisisekelo #PHASA2018
@blestab	@_FaceSA cultural issues are often missed in solution formulation so this is definitely an important one #phasa2018
@_FaceSA	T2: Private and public health need to start coming to agreements between them #phasa2018
@atiyamosam	T2 We need a mindshift towards a stance of social solidarity and good will towards our fellow South Africans. #phasa2018
@Isobel_Ndoro	@hcsmsa T2:Poverty. Bad Infrastructures or Governance /Policies. Costs. Inadequate /no insurance coverage. Transportation, Education & Awareness Barriers. #PHASA2018 #HealthForAll
@Mimmie Matsanga	T2: We need to avoid a narrow, instrumental approach when deciding on health priorities,that is not considering how new reforms will fit into the larger scheme of things (entire healthcare system). Objective sensitivity analysis necessary. #PHASA2018 #HealthforALL #hcsmsa https://t.co/FnQrRn5BPO
@_FaceSA	T2: We need to overcome a culture of inclusivity, which means patients. They matter towards identifying gaps in the system #phasa2018
@moeketsimodise1	T2: unaffordability of health services especially for the poor #phasa2018

@GarethPresch	@_FaceSA Combine and share knowledge - we can all learn together #phasa2018 as we are now🌞🌍 https://t.co/HlqK0tzmS8
@blestab	@hcsmsa T2: Vulnerable populations include remote rural populations, the urban poor, children affected by drought and conflict, people living with the HIV and at risk of tuberculosis, persons with physical disabilities, undocumented migrant workers and gender minorities.#PHASA2018
@pochonavaro	#phasa2018 T2: Improve education to implement with technology, that each person has human science to prevent future diseases and change policies in health regulations #HealthforAll #HealthCareforAll #Health4All #Saludparatodoslasalud #Saludparatodoslosaludables #Saludparatodos
@atiyamosam	T1 Health for all focuses on non-communicable and communicable diseases. #phasa2018
@livetalkafrica	T1:Wonke umuntu udinga ukulingana okulingeneyo kungakhathaliseki ukuthi isimo noma imali engenayo .#PHASA2018
@blestab	@hcsmsa T2: Poverty, political processes and policies, as well as legislation that excludes population groups or criminalizes certain behaviours, and social attitudes that marginalize, stigmatize and discriminate. #PHASA2018
@blestab	T1: #HealthForAll implies a commitment to promote the advancement of all citizens on a broad front of development and a resolution to encourage the individual citizen to achieve a higher quality of life. #PHASA2018
@hcsmsa	T2: What barriers need to be overcome first before we can realise Health for All by 2030? #phasa2018
@hcsmsa	Keep answers coming! #phasa2018
@atiyamosam	Definitely, especially in our Rainbow Nation where many people access other forms of healing. #phasa2018
@MimmieMatsanga	@moeketsimodise1 Yes very important. Change at policy level necessary #PHASA2018
@hcsmsa	We're moving on to T2 everyone #phasa2018
@GarethPresch	@_FaceSA Meaning equal access for all to those services that support a citizens health and wellbeing 🇳🇮 #phasa2018 #HealthForAll the question is how? WHY? What are the opportunities? #WHIS https://www.thriveglobal.com/stories/41960-opportunity-knocks
@Zumbudda	My name is Gaby Lobban from @zumbudda We are a health tech startup based at @GEN22OnSloane and we advocate for better access to care using @digitalhealth tools. #PHASA2018
@MmaphehliM	@hcsmsa T1: Health for all means quality and affordable healthcare services for every patient regardless of their financial capabilities. #PHASA2018
@_FaceSA	@GarethPresch We have important issues relating to African and Western Medicine that should be recognised and included #phasa2018
@atiyamosam	T1 Health for all aims to address the social determinants of health such as access to safe water and sanitation, food security, income... #phasa2018
@moeketsimodise1	T1: we need to anchor #HealthForAll within the right to health #phasa2018
@_FaceSA	@GarethPresch what exactly does that mean though between cultures? #phasa2018
@blestab	@atiyamosam absolutely #phasa2018
@atiyamosam	T1 Health for all means cross subsidization from rich to poor and healthy to sick. #phasa2018
@hcsmsa	@livetalkafrica thank you so much for joining us today. #phasa2018
@livetalkafrica	Hie everyone my name is Gladys dube .I'm a student in health social media expert #PHASA2018

@blestab	T1: #HealthforAll implies the removal of the obstacles to health - the elimination of malnutrition, ignorance, unsafe drinking water and unhygienic housing - quite as much as it does the solution of purely medical problems such as a lack of doctors, drugs and vaccines. #PHASA2018
@atiyamosam	T1 Health for all is quality health care that is safe for patients and healthcare workers. #phasa2018
@_FaceSA	T1: Health for All means access to medicines like #Antibiotics, so patients who can't afford them don't buy substandard ones #phasa2018
@blestab	@moeketsimodise1 indeed we do #phasa2018
@moeketsimodise1	We need to secure good and quality health and wellbeing For All People #PHASA2018
@MimmieMatsanga	T1: #HealthforAll means the right OF EVERYONE to enjoyment of the highest attainable standard of physical & mental health & includes attaining a reduction in the stillbirth rates & infant mortality. i.e access to vaccines, maternal health care services #PHASA2018 #hcsmsa https://t.co/7XWiP0kvVp
@_FaceSA	T1: Health for all is inclusive, don't forget how disabled patients battle to reach hospitals and other HCP's #phasa2018
@SHA_ZAR	T1: #HealthForAll means health universal health coverage and health equity i.e. everyone should have access to appropriate, quality healthcare regardless of their ability to pay #PHASA2018
@rene_sparks	#HealthForAll means our health system needs to step up to meet the needs of the people. No discrimination, no stigma, no stock outs. Processes and systems communicated to the communities: developed with the people, for the people. #PHASA2018
@GarethPresch	@hcsmsa A citizens right to quality health and social care services when required - #HealthForAll 🇿🇦 #PHASA2018
@atiyamosam	T1 Health for all involves all of society - governments, civil society, private sector. #phasa2018
@Zumbudda	T1: An emphasis on health+care and the inclusion of ALL, from research to delivery. Health is the outcome, care is the intervention. Everything along the way must defer to these two factors no matter who the person is. #PHASA2018
@blestab	T1:#HealthforAll means that health is to be brought within reach of everyone in a given country. Health is a personal state of well being, not just the availability of services – a state of health that enables a person to lead a socially & economically productive life. #PHASA2018
@_FaceSA	T1: Health for all is ensuring that all medicines are readily available at the public health pharmacy, or another depot nearby #phasa2018
@pochonavaro	#phasa2018 T1: It is a right that all people should have good care, a good diagnosis, good medicines and good quality food. #HealthforAll #HealthCareforAll #Health4All #Saludparatodoslosalud #Saludparatodoslosaludables #Salud4todos
@hcsmsa	@pochonavaro we welcome you from the other side of the Global South. looking forward to your views! #phasa2018
@atiyamosam	T1 Health for all means healthcare that does not discriminate based on age, gender, race or religion. #phasa2018
@moeketsimodise1	All citizens of the world should achieve quality health that should meet their needs without exposing them to unnecessary financial hardships #phasa2018
@_FaceSA	T1: Health for all means access to very basic public health services which are delivered at a high quality #phasa2018
@MimmieMatsanga	T1: #HealthforAll also means access FOR ALL to comprehensive healthcare services and medicines. Realising all aspects of access which include availability, affordability,

	approach-ability, acceptability & importantly the quality in which these services are delivered #PHASA2018
@pochonavaro	#phasa2018 my name is Alfonso Navarro Carvallo business consultant and ambassador of the SDGs #EliteconsultoriaSDGs
@atiyamosam	T1 Health for all is health care access that is acceptable, affordable and available to everyone. #phasa2018
@Isobel_Ndoro	@hcsmsa T1: Easy access - low cost & nearer locations. Quality service - Good Medical equipment & services. #PHASA2018 #HealthForAll
@hcsmsa	@GarethPresch @HIC2016 welcome! It's wonderful to have you! We hope you will be following the event!!! #phasa2018
@blestab	@hcsmsa T1: #HealthforAll does not mean an end to disease and disability, or that doctors and nurses will care for everyone. It means that resources for health are evenly distributed and that essential health care is accessible to everyone #PHASA2018
@atiyamosam	T1 Health For All means health care for everyone, regardless of socioeconomic status. #phasa2018
@Marietj72675939	@hcsmsa @MmaphehliM Honoured to take part and looking forward to some exciting chats #PHASA2018
@GarethPresch	Hi all - Gareth, Founder @HIC2016 #WHIS #phasa2018 🌐🌐🌐platform - improving people's health and wellbeing while generating value shared 📢👉📄 https://t.co/Mul4gUpEW3
@hcsmsa	T1: What does Health for All mean to you? #phasa2018
@hcsmsa	Starting with T1 now everyone. If you join in later, please tell us who you are when you do. We look forward to your views #phasa2018
@hcsmsa	@SHA_ZAR it is our honour to have you, thank you for being here for this important conversation #phasa2018
@hcsmsa	@moeketsimodise1 thank you for your support! #phasa2018
@moeketsimodise1	My name is Moeketsi thanks to join the movement #phasa2018
@hcsmsa	@MmaphehliM @Marietj72675939 thank you for being here to share your views Marietjie and Michelle #phasa2018
@pochonavaro	RT @_FaceSA: My name is Vanessa Carter, I am an #ePatient and #AntibioticResistance activist in South Africa #phasa2018
@rene_sparks	I am Renè Sparks, a final yr MPH student, Clinical Nurse Practitioner and Clinical Manager supporting civil society organizations providing Biomedical services to key and vulnerable populations. Leadership of SANAC Civil Society Forum Health Professionals Sector. #PHASA2018 https://t.co/m2WFTwHXvk
@_FaceSA	My name is Vanessa Carter, I am an #ePatient and #AntibioticResistance activist in South Africa #phasa2018

@MmaphehliM	Mmaphehli Maponya, academic intern and MPharm candidate from SMU #PHASA2018
@SHA_ZAR	@hcsmsa Hi! I'm Harsha- Public Health Medicine Specialist at WITS and PHASA Exec Board Member #PHASA2018 #HealthForAll
@hcsmsa	@Isobel_Ndoro welcome, we're honoured to have your perspective #phasa2018
@hcsmsa	The first 10 minutes of the chat will be around intros, so go ahead and tell us what you do. We'll start with T1 in about 5 mins #phasa2018
@Isobel_Ndoro	Hi all, my name is Isobel Ndoro #phasa2018
@blestab	@hcsmsa @atiyamosam @blestab always a pleasure to play my part #phasa2018

@rene_sparks	T1: #HealthForAll means equitable distribution of resources, access to quality, safe PHC services for all and a multisectoral, engaged support structure for a functional thriving health system #PHASA2018
@hcsmsa	@atiamosam @blestab thank you so much for your expertise today! We look forward to your views #phasa2018
@MimmieMatsanga	Hello everyone. Michelle here. Postgraduate student/Academic intern with the department of Public Health Pharmacy at Sefako Makgatho Health Sciences University #PHASA2018
@blestab	Hello everyone, Blessed from @MEDITECHSA here, ready to use HealthIT to help achieve #HealthForAll at #PHASA2018
@hcsmsa	@MahlabaK great to see you, thank you for being with us today #phasa2018
@hcsmsa	Our topic is about Health for All in South Africa today using the hashtag #PHASA2018 (#SDG3 #HealthforAll #UHC #PublicHealth)
@MahlabaK	Jackson, SMU #PHASA2018
@atiamosam	Hi All. My name is Atiya and I am a Public Health Medicine Registrar at Wits University as well as Secretary of @PublicHealthSA #phasa2018
@hcsmsa	Special thanks to our guests @atiamosam @moeketsimodise1 @blestab @isobel_ndoro @MimmieMatsanga @Marietj72675939 @rene_sparks #phasa2018
@hcsmsa	Just a reminder we are NOT using the hashtag #hcsmsa to chat, we are using the hashtag #PHASA2018
@hcsmsa	Welcome to everyone joining the chat! We're starting now. Please go ahead and join by introducing yourself #phasa2018
@hcsmsa	Today's public transcript will be recorded by @symplur analytics here: https://www.symplur.com/healthcare-hashtags/phasa2018/ #phasa2018
@hcsmsa	@Marietj72675939 very important to have you from a legal perspective! Thank you for being here with us! We're starting in 3 mins #phasa2018
@Marietj72675939	@hcsmsa Ready for tonight's twitter chat, steady ... waiting for go! #PHASA2018 https://t.co/noQiAz3HsT
@hcsmsa	Today's blog and questions are available to read here: https://t.co/DfgJQrEqAB . We will be starting in five minutes (20:30 SAST) #phasa2018
@_FaceSA	@MoeketsiModise2 worth checking out the conversations taking place on the #HealthforAll hashtag & the Global Citizen movement :) #phasa2018
@rene_sparks	TB Ambassadors share their experiences and speak of our civic duty and our ability to mobilize and enthuse Leaders in TB. Public Health is part of the transformation agenda. #PHASA2018 #HealthForAll #TBCaucusSA @PublicHealthSA @SA_AIDSCOUNCIL @HealthZA @NACOSANet
@MoeketsiModise2	Moeketsi ready to join the #HealthforAll movement #PHASA2018
@hcsmsa	While we wait to start our chat in a few minutes about Health for All, read more about our community etiquette here: https://t.co/F0qgMVyh0e . We will be using the hashtag #PHASA2018 for this session.
@rene_sparks	Honored to be attending and engaging in the SA TB Caucus. Wonderful to see political will and power used to positively impact the TB burden. #HealthForAll #PHASA2018 #Tuberculosis @SA_AIDSCOUNCIL @NACOSANet @PublicHealthSA #hcsmsa https://t.co/8ftCn1rrqv
@Isobel_Ndoro	#HealthForAll chat is open to everyone. Come join us and share your views. Your voice matters and we need fresh ideas to change things and build a stronger system and future. #PHASA2018
@hcsmsa	Our feature video for today's Twitter chat using the hashtag #PHASA2018 starting at 20:30 SAST from @DrTedros explains why Health for All matters, as well as why the
